Event Track

Innovative Event Management Software

Event Track makes it easy for you to register, badge and track your attendees. Register attendees online or on-site at reception desks and self-registration kiosks. Design and print plastic ID cards or paper badges using the included industry-leading ID Flow badge design software. Check in and record attendance using networked check in stations or handheld scanners.

Secure network data-sharing and reporting allows for centralized management of the software. Integration with existing systems across multiple locations is supported.

JOLLY

Complete Tracking Solution

· Track attendees, exhibitors and employees

· Record attendance

· Search records fast with definable lookup fields

· Issue plastic ID cards and paper attendee badges

· Batch print attendee badges

· Scan driver's license for fast registration

· Set access rules by attendee type, time and location

· View and print detailed reports

· Print evacuation reports

· Integrate with existing systems

· Check in using mobile handheld scanners

The Event Track Advantage

Configurable Attendee Database
Select one of the pre-configured databases or easily connect to your existing database. Define database fields that pertain to your event. Layout fields using drag-and-drop tools, create drop-down lists, set default values and auto-format data. Import records from Excel, CSV files or other databases.

Fast Registration
Allow attendees to self-register at kiosks. Import data instantly through your online registration system or use Event Track Online Registration. Scan attendee information from a driver's license or business card. Initialize default values. Check for duplicate records automatically.

Issue Professional Event Badges
Design professional ID cards and attendee badges using an integrated version of Jolly's card design suite: ID Flow. Choose from 20+ barcode types. Encode magnetic stripes. Print badges automatically after registration or through self check in kiosks. Set rules to prevent duplicate badge printing.

Track Attendance
Use check in stations to verify access into sessions. Set access policy by attendee type, time and location. Record attendance using handheld scanners. Show form to enter additional information during check in. View and print custom attendance reports. Automatically update records after check in.

Specifications

Databases

Microsoft Access
Microsoft SQL Server
Microsoft Excel
Microsoft Visual FoxPro
Oracle
Sybase
MySQL
dBase
Includes Sample Database
ODBC / OLE DB Compliant

Barcodes

Code 39
Code 128
Codabar
QR Code (2D)
PDF417 (2D)
Data Matrix (2D)
Many More

Printers

Dymo
Evolis
Zebra / Eltron
Fargo
Datacard
UltraMagicard
DNP
Nisca
HiTouch
EDI Secure
Laser and Inkjet Desktop Printers

Devices

ScanShell 800 / 1000
SnapShell
Turnstiles and other entry gates

Templates

CR-80, CR-50, CR-79, CR-90, CR-100
2500+ Avery and Other Paper Badges

System Requirements

Microsoft Windows XP/2003/Vista/7
Intel Core Duo or Faster
2 GB RAM
4 GB Free Disk Space

Feature Highlights

· Scan driver's license, ID cards, and passports for fast and reliable data entry

· Integrate with existing data systems

· Scan badges with standard or mobile barcode scanners

· Open and close turnstiles

· Run in normal or unattended kiosk mode

· Configure check in rules

· Check attendees in and out in the background while performing other tasks

· Display on-screen messages

· Automatically update record fields after registration, check in, check out and badge printing

· Customize record screens, change colors and field order, create pull down lists, date fields and more

· Link and manage multiple stations and locations

· Log time and attendance with exportable data capabilities

· Track activities with customizable charts

· Create reports such as attendee history and station usage

· Customize logs and reports - use any combination of fields and criteria to produce professional reports

· Search for specific attendee records from thousands of records using flexible search tools

· Design event badges using the integrated badge designer

· Add text graphics, 1D and 2D barcodes, magnetic stripes, RFID, watermarks and much more to the badge design

· Light Client Edition must be used in conjunction with Event Track Premier and Jolly Server.

Available in Several Editions

· Premier   · Light Client
